THE meterined would respectfully solicit the attention of dealers in and coasumers of Coal in Milwankee to our Card, as above. The Bollium Coal is unquestionably superior to any other timed in Ohio, for Grate, Blacksmithings, a superior to any except birar Hill. It is peculiarly adaptated to Stipping, as its extreme hardness remains a superior to any except birar Hill. It is peculiarly the superior to any except birar Hill. It is peculiarly the superior to any except birar Hill. It is peculiarly as the superior to any about of handling, without wrate. It can be attended considerably cheaper than Brier Hill, and for most purposes, its better.

It is our wish to introduce the article, and we respect to convince any of the truth of the above assertion.

The New Hampshire Test

Mr. Dallas' charge against the whigs of New Hamp-lite, of having defeated the abolition of the religious test in New Hamphire, has been so often infuted by the facts and figures that i crems almost a waste of time and space to follow a further. But inasmuch as the Loco Foco press continues to circulate it, and to add to it, and to dain, for Mr. Pierce the merit of being a strenuous advocate of the proposed and just reform, it may be well to devote some space occasionally to the

The readers of the N. Y. Tribans will find h the Daily issue of that paper of the 7th instit a speech delivered on the exening of the 6th, by WM. E. Rosinson, a Whig Irishman, which must satisfy any caudid man of the real state of the case ne to this New Hampshire Test. Mr. R. has been up in that state, examining the records with that able, and the speech is the result. Of course we have no room for the whole document, as it occuples over 8 columns of small type in the Tribine and we can only copy the points laid down by the

and we can only copy the points hald down by the spanker, as reported in that paper:

Mr. Robinson laid down the following assertions, and so carnest was he in challenging an investigation, that he amounced that he would deposit, in the hands of Simeon: Draper, one handed dotters to be forfeited and given up to any one that would prove that in any one of these propositions he mis-stated the facts. The decimon to be left to Robert Emmet.

and to be left to Robert Emmet.

1. Frand: Pierce did not speak at all in fator of the Unline Emancipation during the whole
time the Unline test was before the Convention.

2. He had nothing to do with "bringing forsmet" the subject. The resolution abolishing
the test was drawn by Mr. Parker, of Nashun, o
Wing, and was "brought forward" by Mr. Par the test was mawn by hir. Parker, or Mashua, 10 hig, and was "brought forward? by Mr. Parker, Nov. 13, when it was discussed in Conven-

ker, Nov. 13, when it was discussed in Convention.

3. It was known throughout New Hampshire that Catholic Enancipation was smally defeated by an own whelming rote some eight or ton weeks before Mr. O'Conor speke in Tammany Hall.

5. When Religious Liberty needed a champion, Oran. Pierce was found—wanting. Though after Catholic Emancipation had been carried in Convention be found time, while making a speech on the Property Qualification, to excuse and apologies for the test of bigotyrby saying that it was a dead letter and a blank, which was simply stating that Catholics would perjure themselves to get into office, by swearing to support a Constitution which expressly shut them out from office.

6. That so far from all his "antecedefix" being right, his father, Benjamin Pierce, voted to put the anti-Catholic clause into the Constitution, and voted for the Alien and Sedition Laws of old John Adams.

Adams.
7. That so far from Catholic Emancipation ful-ling only for want, of a two-thirds vote, it had not one-fifth of the votes east throughout the State at the same election for Governor and did not come near a simple majority of the small vote cast on

their a simple unjority of the small vote cast on this question.

2. That in place of there being any high confidence in New-Hampshire of Catholic Emancipation being carried, the general opinion is, that unless we draw a line around New-Hampseiro, saying that while the plaguespot is on her, and the ship is unpurified, no man, captain, nor crew, shall land, and thus, by the deleat of General Pierce, hiring his bigoted party to their sense. He Catholics in that State stand no chance of being Emmerphed for half a century.

9. And in aword, in fine, that the father, Benjamin Pierce, was a red hot enousy of the Catholics and a supporter of the Alien and Sedition acts, and that Franklin Pierce, the young chicken, learned to crow so glibly from the old one that he raised not a voice in favor of abolishing his father's bigotry during the whole time the subject was under discussion in a Courention of which he was a leading member and President.

Strange as it may seem to those who have read the assertions-even the quoted speeches of Mr. Pierce-by the press in his interest, Mr. Robinson establishes his points by reference to the record, But how-is the natural question-how does it happen that we are furnished by the Locofocopress with a speech of Mr. Pierce's against the test? The trick by which they wish to make the people believe that the passage of the article (abol. Mr. Rossler's Cumpaign paper enters upon the sult in a great measure, of Mr. Pierce's efforts and

cloquence, was accomplished thus:
The Convention met Nov. 6th, 1850. Up to Nov. 13th, no argument had fallen from Mr. Pierce concerning Catholie Emancipation. On have made his "great speech" on the subject.-Mr. Woodbury did make an able speech in favor of the resolution. Mesers Parker and Robinson both Whigs, followed on the same side, when i passed, Mr. Pierce not saying our word in its fa-

But whence comes his speech, then? Why, when a speech was found to be needed, it was found that, after the religious qualification had been acted upon, without aid from Mr. Pierce, he made, a speech on the property qualification, in which he spoke of the other as a "dead letter" in the Constitution—as if a matter of little conseamounted to any thing in substance, and he was with the result, regarding it in any point of plad that flag time had now come for abolishing with the result, regarding it in any point of newed at Madison by J. W. Hunt. It is a lead-Mr. Robinson follows the subject closely through

the whole of his speech. He presents an array of fects and figures which arid to the strong array before shown in evidence of the assertions made by the Whig press, in self defence, that the Whigs of New Hampshire were not the party responsi-ble for the failure of the article of the Constitution abolishing the test. We hope that the speech will be issued in pamphlot form for general circulation

Tounage Dutles for Hurbors.

How do our produce growers and dealers ou West like Senator Douglass' brilliant idea of alwing the several cities and towns on the Lakes to lay tonnage duties on vessels, to raise funds for the huilding and repair of their harbors ? Take an example. A propeller enters here, and leads with produce for the east—say 10000 bushels outs, and 1000 bbls flour, for Buffalo. On this, call an average rate of freight 7c on oats, and 35c on Rour, making \$1050, as now, without tonage which, notwithstanding the efforts of the "democratics. Say we ship this year 200,000 bus, onts and 100,000 bbls. flour (the amount will be over all the same are strongly to countered its infrastree, and preventing a strongly calling a strongly countered to the faithful, by lastily calling a his estimate,) and we have \$49,000 freight paid on these two items.

Now let a clover tonnage duty be levied on the i men. propeller here, and as she goes along, at Sheboygan, Manitowoc, Detroit, Cleveland, Erie, and Buffalo, all of which swell the expense of transornation, and would at a moderate estimate raise he price of freight at least 2c on the grain, and the price of negating \$250 difference on the single cargo, and \$9000 on the two items of onts and flour—and carry this system out with all the articles of export. Then let the favouers reflect that every one of these expenses of transportation comes out of his pocket in the end, and what does he think of it? In other words what does the western farmer or recrebant think of paying-by a aduction in the price of his produce in the one ase, and an increase of his freight bills in the other,-for building and repairing our barbors ? Yet this is the system which Senator Douglas proposes! and it is this system which he and how many of his Democratic friends we don't

The attempt is made adroit under pretence of friendship for the bill, but I reality with a view to kill it with amendment for the purpose of fastening the odium of its defeat upon Gen. This is the old trick of the robber, deeing from his pursuers, and joining himself in the cry of "Stop This?" to divert suspicion. The News anticipates the defeat of the River and Harbor Bill, by the Democratic Senute, and is already trying to shift the responsibility for the act from the majority to the minority. The People cannot be gulled by any such weak invention. They know that the Democrats have a majority of nearly one-third in the Senate, and can pass, or defeat the Hurbor Bill as they please. They know too that the Waig Senators can neither amend, dolay or defent this Bill except with the "advice and consent" of the Democratic majority. In short the fate of the bill depends upon the Democrats of the Senate, and the West will hold them to a strict account.

THE ENGLISH ELECTIONS.—The Pacific brings news of the completed returns of the members of the English House of Commons, except five. It is impossible, until after the meeting of Parliament, and the trial of some question, to ascertain where the majority lies. The London papers differ very materially in their estimates. For instance, the Globe sets down the number at: Liberals 229, Derby-D'Ismelites 289, doubtful 36. The Morning Chronicle Ministerials 290, Whigs and more ad vanced Liberals 310, Liberal-Conservatives of Paelites between 50 and 60. The Shipping Ou-zette (from the Times) gives the following estimate, which is probably as nearly accurate as may

Correspondence of the Daily Sentingly Cheering News from the North-3fr. Collins at Osbkosh.

Scott and Geautys stock is steadily rising in Northern Wisconsin, and the Whigs are every where in excellent spirits. They hope—may more, they promise,—to redeem this fair portion of our State from the blighting, withering, carse of 'modern democracy," and place it conspicuously amongst the glittering galaxy of counties and States which will, at the ensuing election, brand the wire-working, time serving demagagues who seek to palm off upon the people unworthy candidates, under false colors, with the stigmawhich they so richly recrit.

Овикови, Aug. 9th, 1852.

On Saturday evening last a meeting of the Scott Club was held at the Court House in this village, which, notwithstanding the efforts of the "democdemocratic meeting upon the same evening, was filled to overflowing by sturdy, energetic Scott A. L. Contins, Esq., of Madison, happening to

be in this region upon a business tour, attended the meeting, and in an elequent and logical speech, of some length, clearly defined the relative position of the parties, and most unequivocally manitested his determination not only to abide by the nominations, but to add the weight of his influsince and eloquence to the cause upon every liting opportunity. It will be recollected that Mr. Co who was one of the Delegates to the Whig National Convention at Baltimore, during the session of that Convention uniformly cast his vote for WESTER, and hence some misapprehension has arisen as to the course likely to be pursued by him in the coming campaign; but like thousands of other true, consistent Whigs, he cheerfully yields his personal preferences to the declared will of the majority, and cordially enters the list to do battle against the common foe. His speech was a good one upon this ceension, and carried conviction to the heart of many an impenitent lo-

Boy Worrn Chamna.—Eappening to be in the Michigan Central Railroad office a few days since, our attention was directed to an elderly lady and her daughter, a buroth lass, fresh from the Green Isle, both healty and telerably elde, each with their luttle world, a small tunds ited in a control handkerchief, relating to our friend. Phin," the good natured and whole-souled him not, but a second glasse give them his care, and we learned the table of their travels.

A son with a heart as big as his body, settled in Michigan, and thriving in besidess, heal, by the sweat of his brow, accumulated fends sufficient to sent for four of his relatives, and now eight more of them were on their way to ascel him with funds sent by him. The old lady had been left without a time in Canada, but found a Christian friend who had eare! for her little Rock, who gave her three dollans for herself and daughter to continue her journey. To hear her recital of wrongs inflicted, and trials endored by hard hearted landloads at hearted. Would stir the faithful son, in the letter methoding his last dines to his mother, writes, the extractive to the will suffice:

Death of Hon, H. N. Munson.—In this city, yesterday, at 1 o'clock, P. M., Hon, H. N. Monson of St. Clair, aged 48 years.

The subject of this notice has been for the past affeon years an active and induential citizen of the rillage and county of St. Clair, where he has held several important offices of public trust, among which was that of Representative to the State Legislature.—Detroit Advertiser, Aug. 11.

A General Indian War Apperentage.—A telegraphic despatch from Washington to the Express, states that "letters from the officers of the U.S. Army on the frontiers of Texas, and in New Mexico, to the War Department, say a general Indian war is apprehended, and they domand that the army be put in a war condition,—with horses, &c.,—in the Quartermaster's Department.

HAIL STREM.—On Thursday last a heavy hait storm passed over the Island of Mackinac, drapping hait stones as large as chestnuts on the heads of its inhabitans and breaking out glass in every direction. The Mission House lost 130 lights from its windows.—Lage Sup. Jour.
